“Go on then, lets hear it” I hear you say, “What’s the theory?” Well here it goes... We believe that good people (that’s you) deserve good honest food. We believe that good food starts with great ingredients. We source our ingredients locally where possible and only use the freshest produce. Free-range meat and dairy is policy, no exceptions. Once you’ve got the ingredients bit sorted anything goes! So long as it tastes good.
